# appstreme® ERP for Apparel Manufacturing

"Boost Your Business Extremely"

**appstreme**<sup>®</sup> is an ERP software for fast fashion, designed to manage your operations from production to delivery and financial procedures.

It has every function your business and sector needs with it's integrated architecture. **appstreme**<sup>®</sup> gives you the ability to be more agile and faster than your competitors in this relentless competitve environment so you won't waste any unnecessary time.

#### Why appstreme®? Works For Your Success

appstreme<sup>®</sup> ERP is a flexible, parametric, customizable, reliable, accessible, and integrated business solutions platform for textile industry.

Increase your sales; Reports issued by instant analysis of all the data of a company are submitted to users with all devices from desktop to mobile devices which makes it possible to follow up new sales opportunities. Therefore, you can make operational decisions that will increase your sales volume by introducing new products to the market.

Reduce your costs; Ensure the effective use of business resources by integrating all business processes in your company and minimization of costs by instant control of these processes. Increase your productivity; Increase your productivity by correct and fast planning and instant monitoring of your resources. Increase customer satisfaction; Meet customer needs on time and increase customer satisfaction by managing customer relations integrated with all processes.

**Increase your speed;** With the help of a powerful reporting system that is effective for making operational and administrative decisions fast and effectively.

**Reach sustainable growth;** Enables you to continuously grow and easily evaluate any business opportunity by adapting to varying market conditions and business executions in the competitive World.

Integrated management of business processes; Allow effective communication and information flow between your departments, gather all your business processes under one roof; coordinate your company.

**Increase your quality;** Managing all business processes, increase your product and service quality.

#### PLM

- Sample Types
- Customer, Department and Group Based Templates
- Sample Task Follow Up
- Sample Version Follow Up
- Sample Initial Cost Calculations
- Automatic Sample Order Entry
- Sample Procurment and Production Follow Up
- Sample Actual Cost Follow Up
- Design Definitions

# STYLE MANAGEMENT

- Style Tracking by Style No, Customer
   Style No and Block No
- All Styles with Picture, Sketch, Print and etc.
- Sample Process Follow Up From Style Card
- Technical Instructions, Specs, Explanations
   and Attachments
- Auto Measurement Chart From Templates
- Unlimited Measurement Table Entries
- Detailed Fabric Recipe
- Detailed Trim Recipe
- Operation, Employee, Resource based Time Study for Productivity
- Season, Collection, Style Group and Category Management
- Easy Access to Picture Gallery and Style
   Catalogue
- Standard and User Defined Style Forms
